GOVERNMENT MOTION

1. *Mr. Grossman*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing April 1st, 1984 and ending June 30th, 1984, such payments to be charged to the proper appropriation following the voting of Supply.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
2. *Mr. Wrye*—Resolution—That in the opinion of this House the Government of Ontario should direct the Public Trustee to delay assuming management of a patient's estate under the *Mental Health Act* where the spouse or immediate family is seeking to have a committee appointed under the *Mental Competency Act*, and to help the families of victims of Alzheimer's disease who have not given powers of attorney by making application procedures for the appointment of such committees much simpler, less expensive and more effective, and to increase the Public Trustee's accountability in managing patients' estates by instructing the Public Trustee to give the patients' families accounting statements annually, rather than only on the patient's death, and that the surplus retained by the Public Trustee after paying salaries and expenses and establishing an assurance fund be not directed to the Consolidated Revenue Fund but be distributed to Ontario medical institutions as grants for research into degenerative brain diseases.
3. *Mr. Van Horne*—Resolution—That in the opinion of this House the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in these situations, and possible solutions to the problems.
4. *Mr. Cooke*—Resolution—That in the opinion of this House the Government should incorporate midwifery as a fully-insured service under OHIP into the health care system by establishing midwifery as a self-regulating profession under the Health Disciplines Act with a College of Midwives that will set

training standards, license midwives to practice in hospitals, birthing centres, domiciles and other settings and guarantee that emergency back-up services are in place, recognizing that Canada is the only western industrial nation that has no provision for midwifery, and in order that the infant mortality rate may be lowered and the increased demand for safe, cost-effective and humane alternatives to current methods of child delivery may be met.

1. *Mr. Grossman*—Resolution—That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of Supply for the period commencing April 1st, 1984 and ending June 30th, 1984, such payments to be charged to the proper appropriation following the voting of Supply.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

2. *Mr. Wrye*—Resolution—That in the opinion of this House the Government of Ontario should direct the Public Trustee to delay assuming management of a patient's estate under the *Mental Health Act* where the spouse or immediate family is seeking to have a committee appointed under the *Mental Competency Act*, and to help the families of victims of Alzheimer's disease who have not given powers of attorney by making application procedures for the appointment of such committees much simpler, less expensive and more effective, and to increase the Public Trustee's accountability in managing patients' estates by instructing the Public Trustee to give the patients' families accounting statements annually, rather than only on the patient's death, and that the surplus retained by the Public Trustee after paying salaries and expenses and establishing an assurance fund be not directed to the Consolidated Revenue Fund but be distributed to Ontario medical institutions as grants for research into degenerative brain diseases.
3. *Mr. Van Horne*—Resolution—That in the opinion of this House the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in these situations, and possible solutions to the problems.
4. *Mr. Cooke*—Resolution—That in the opinion of this House the Government should incorporate midwifery as a fully-insured service under OHIP into the health care system by establishing midwifery as a self-regulating profession under the Health Disciplines Act with a College of Midwives that will set

training standards, license midwives to practice in hospitals, birthing centres, domiciles and other settings and guarantee that emergency back-up services are in place, recognizing that Canada is the only western industrial nation that has no provision for midwifery, and in order that the infant mortality rate may be lowered and the increased demand for safe, cost-effective and humane alternatives to current methods of child delivery may be met.

5. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.

1. *Debated March 27th, 1984.*
2. *Mr. Wells*—Resolution—That the following Standing Committees be established for this Session, with power to examine and inquire into all such matters as may be referred to them by the House, with power to send for persons, papers and things, as provided in section 35 of the *Legislative Assembly Act*:

 - **Standing Committee on Administration of Justice** (12 Members, as above);
 - **Standing Committee on Social Development** (12 Members, as above);
 - **Standing Committee on Regulations and Other Statutory Instruments** (12 Members, as above), appointed for this Session to be the Committee provided for by section 12 of the *Regulations Act*, and having the terms of reference as set out in that section, namely: to examine the regulations with particular reference to the scope and method of the exercise of delegated legislative power without reference to the merits of the policy or objectives to be effected by the regulations or enabling statutes, but in so doing regard shall be had to the following guidelines: (a) Regulations should not contain provisions initiating new policy, but should be confined to details to give effect to the policy established by the statute. (b) Regulations should be in strict accord with the statute conferring of power, particularly concerning personal liberties. (c) Regulations should be expressed in precise and unambiguous language. (d) Regulations should not have retrospective effect unless clearly authorized by statute. (e) Regulations should not exclude the jurisdiction of the courts. (f) Regulations should not impose a fine, imprisonment or other penalty. (g) Regulations should not shift the onus of proof of innocence to a person accused of an offence. (h) Regulations should not impose anything in the way of a tax (as distinct from fixing the amount of a licence fee, or the like). (i) General powers should not be used to establish a judicial tribunal or an administrative tribunal. And the Committee shall from time to time report to the House its observations, opinions and recommendations as required by section 12 (3) of the *Regulations Act*, but before drawing the attention of the House to a regulation or other statutory instrument the Committee shall afford the ministry or agency concerned an opportunity to furnish orally or in writing to the Committee such explanation as the ministry or agency thinks fit. And the Committee shall have power to employ counsel and such other staff as it considers necessary;

- **Standing Committee on Members' Services** (12 Members, as above), to examine the services to Members from time to time, and without interfering with the statutory responsibility of the Board of Internal Economy in such matters, be empowered to recommend to the consideration of the House matters it wishes to draw to the special attention of the Board; and be empowered to act as an Advisory Committee to Mr. Speaker and the Board of Internal Economy on the administration of the House and the provision of services and facilities to Members, and to draw the special attention of the House to such matters as the Committee believes requires it;

And, That, unless otherwise ordered, substitution be permitted on all Standing Committees provided that written notice of substitution is given to the Chairman of the Committee before the Committee meets or in the first thirty minutes after the Committee meeting is called to order.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
2. *Mr. Wrye*—Resolution—That in the opinion of this House the Government of Ontario should direct the Public Trustee to delay assuming management of a patient's estate under the *Mental Health Act* where the spouse or immediate family is seeking to have a committee appointed under the *Mental Competency Act*, and to help the families of victims of Alzheimer's disease who have not given powers of attorney by making application procedures for the appointment of such committees much simpler, less expensive and more effective, and to increase the Public Trustee's accountability in managing patients' estates by instructing the Public Trustee to give the patients' families accounting statements annually, rather than only on the patient's death, and that the surplus retained by the Public Trustee after paying salaries and expenses and establishing an assurance fund be not directed to the Consolidated Revenue Fund but be distributed to Ontario medical institutions as grants for research into degenerative brain diseases.
3. *Mr. Van Horne*—Resolution—That in the opinion of this House the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in these situations, and possible solutions to the problems.
4. *Mr. Cooke*—Resolution—That in the opinion of this House the Government should incorporate midwifery as a fully-insured service under OHIP into the health care system by establishing midwifery as a self-regulating profession under the Health Disciplines Act with a College of Midwives that will set training standards, license midwives to practice in hospitals, birthing centres, domiciles and other settings and guarantee that emergency back-up services are in place, recognizing that Canada is the only western industrial nation that has no provision for midwifery, and in order that the infant mortality rate may be lowered and the increased demand for safe, cost-effective and humane alternatives to current methods of child delivery may be met.
5. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and

consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.

6. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.
 7. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.

 - **Standing Committee on Regulations and Other Statutory Instruments** (12 Members, as above), appointed for this Session to be the Committee provided for by section 12 of the *Regulations Act*, and having the terms of reference as set out in that section, namely: to examine the regulations with particular reference to the scope and method of the exercise of delegated legislative power without reference to the merits of the policy or objectives to be effected by the regulations or enabling statutes, but in so doing regard shall be had to the following guidelines: (a) Regulations should not contain provisions initiating new policy, but should be confined to details to give effect to the policy established by the statute. (b) Regulations should be in strict accord with the statute conferring of power, particularly concerning personal liberties. (c) Regulations should be expressed in precise and unambiguous language. (d) Regulations should not have retrospective effect unless clearly authorized by statute. (e) Regulations should not exclude the jurisdiction of the courts. (f) Regulations should not impose a fine, imprisonment or other penalty. (g) Regulations should not shift the onus of proof of innocence to a person accused of an offence. (h) Regulations should not impose anything in the way of a tax (as distinct from fixing the amount of a licence fee, or the like). (i) General powers should not be used to establish a judicial tribunal or an administrative tribunal. And the Committee shall from time to time report to the House its observations, opinions and recommendations as required by section 12 (3) of the *Regulations Act*, but before drawing the attention of the House to a regulation or other statutory instrument the Committee shall afford the ministry or agency concerned an opportunity to furnish orally or in writing to the Committee such explanation as the ministry or agency thinks fit. And the Committee shall have power to employ counsel and such other staff as it considers necessary;

- **Standing Committee on Members' Services** (12 Members, as above), to examine the services to Members from time to time, and without interfering with the statutory responsibility of the Board of Internal Economy in such matters, be empowered to recommend to the consideration of the House matters it wishes to draw to the special attention of the Board; and be empowered to act as an Advisory Committee to Mr. Speaker and the Board of Internal Economy on the administration of the House and the provision of services and facilities to Members, and to draw the special attention of the House to such matters as the Committee believes requires it;

And, That, unless otherwise ordered, substitution be permitted on all Standing Committees provided that written notice of substitution is given to the Chairman of the Committee before the Committee meets or in the first thirty minutes after the Committee meeting is called to order.

3. *Mr. Wells*—Resolution—That this House endorses the following schedule for committee meetings during this Session: the **Standing Committee on Social Development** may meet on the afternoons of Mondays, Tuesdays and Wednesdays; the **Standing Committee on Resources Development** may meet on the evenings of Tuesdays and Thursdays; the **Standing Committee on General Government** may meet Wednesday afternoons; the **Standing Committee on Administration of Justice** may meet Thursday afternoons and Friday mornings. On Wednesday mornings no more than two of the following committees may meet without leave of the House: **General Government, Resources Development, Administration of Justice**. The following committee may meet on Thursday afternoons: **Members' Services**.

And, That no Standing or Select Committee may meet while the House is in Session except in accordance with this schedule or as ordered by the House.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
2. *Mr. Wrye*—Resolution—That in the opinion of this House the Government of Ontario should direct the Public Trustee to delay assuming management of a patient's estate under the *Mental Health Act* where the spouse or immediate family is seeking to have a committee appointed under the *Mental Competency Act*, and to help the families of victims of Alzheimer's disease who have not given powers of attorney by making application procedures for the appointment of such committees much simpler, less expensive and more effective, and to increase the Public Trustee's accountability in managing patients' estates by instructing the Public Trustee to give the patients' families accounting statements annually, rather than only on the patient's death, and that the surplus retained by the Public Trustee after paying salaries and expenses and establishing an assurance fund be not directed to the Consolidated Revenue Fund but be distributed to Ontario medical institutions as grants for research into degenerative brain diseases.
3. *Mr. Van Horne*—Resolution—That in the opinion of this House the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in these situations, and possible solutions to the problems.
4. *Mr. Cooke*—Resolution—That in the opinion of this House the Government should incorporate midwifery as a fully-insured service under OHIP into the health care system by establishing midwifery as a self-regulating profession under the Health Disciplines Act with a College of Midwives that will set training standards, license midwives to practice in hospitals, birthing centres, domiciles and other settings and guarantee that emergency back-up services are in place, recognizing that Canada is the only western industrial nation that has no provision for midwifery, and in order that the infant mortality rate may be lowered and the increased demand for safe, cost-effective and humane alternatives to current methods of child delivery may be met.
5. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and

consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.

6. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.
 7. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.

(b) Regulations should be in strict accord with the statute conferring of power, particularly concerning personal liberties. (c) Regulations should be expressed in precise and unambiguous language. (d) Regulations should not have retrospective effect unless clearly authorized by statute. (e) Regulations should not exclude the jurisdiction of the courts. (h) Regulations should not impose anything in the way of a tax (as distinct from fixing the amount of a licence fee, or the like). (i) General powers should not be used to establish a judicial tribunal or an administrative tribunal. And the Committee shall from time to time report to the House its observations, opinions and recommendations as required by section 12 (3) of the *Regulations Act*, but before drawing the attention of the House to a regulation or other statutory instrument the Committee shall afford the ministry or agency concerned an opportunity to furnish orally or in writing to the Committee such explanation as the ministry or agency thinks fit. And the Committee shall have power to employ counsel and such other staff as it considers necessary;

- **Standing Committee on Members' Services** (12 Members, as above), to examine the services to Members from time to time, and without interfering with the statutory responsibility of the Board of Internal Economy in such matters, be empowered to recommend to the consideration of the House matters it wishes to draw to the special attention of the Board; and be empowered to act as an Advisory Committee to Mr. Speaker and the Board of Internal Economy on the administration of the House and the provision of services and facilities to Members, and to draw the special attention of the House to such matters as the Committee believes requires it;

PRIVATE MEMBERS' MOTIONS

1. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

2. *Mr. Wrye*—Resolution—That in the opinion of this House the Government of Ontario should direct the Public Trustee to delay assuming management of a patient's estate under the *Mental Health Act* where the spouse or immediate family is seeking to have a committee appointed under the *Mental Incompetency Act*, and to help the families of victims of Alzheimer's disease who have not given powers of attorney by making application procedures for the appointment of such committees much simpler, less expensive and more effective, and to increase the Public Trustee's accountability in managing patients' estates by instructing the Public Trustee to give the patients' families accounting statements annually, rather than only on the patient's death, and that the surplus retained by the Public Trustee after paying salaries and expenses and establishing an assurance fund be not directed to the Consolidated Revenue Fund but be distributed to Ontario medical institutions as grants for research into degenerative brain diseases.
3. *Mr. Van Horne*—Resolution—That in the opinion of this House the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in these situations, and possible solutions to the problems.
4. *Mr. Cooke*—Resolution—That in the opinion of this House the Government should incorporate midwifery as a fully-insured service under OHIP into the health care system by establishing midwifery as a self-regulating profession under the Health Disciplines Act with a College of Midwives that will set training standards, license midwives to practice in hospitals, birthing centres, domiciles and other settings and guarantee that emergency back-up services are in place, recognizing that Canada is the only western industrial nation that has no provision for midwifery, and in order that the infant mortality rate may be lowered and the increased demand for safe, cost-effective and humane alternatives to current methods of child delivery may be met.
5. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and

consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.

6. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.
 7. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.
 8. *Mr. Cooke*—Resolution—That in the opinion of this House, the Minister of Health should give initial approval to the proposal to establish a Toronto Birth Centre, and recommend that funding be granted for this demonstration project establishing a birth centre independent of hospital, as a model that can be adapted for use throughout the Province to provide expectant parents with education and care during pre- and post-natal periods as well as assistance in delivery for healthy mothers.

- **Standing Committee on Administration of Justice** (12 Members, as above);

(b) Regulations should be in strict accord with the statute conferring of power, particularly concerning personal liberties. (c) Regulations should be expressed in precise and unambiguous language. (d) Regulations should not have retrospective effect unless clearly authorized by statute. (e) Regulations should not exclude the jurisdiction of the courts. (h) Regulations should not impose anything in the way of a tax (as distinct from fixing the amount of a licence fee, or the like). (i) General powers should not be used to establish a judicial tribunal or an administrative tribunal. And the Committee shall from time to time report to the House its observations, opinions and recommendations as required by section 12 (3) of the *Regulations Act*, but before drawing the attention of the House to a regulation or other statutory instrument the Committee shall afford the ministry or agency concerned an opportunity to furnish orally or in writing to the Committee such explanation as the ministry or agency thinks fit. And the Committee shall have power to employ counsel and such other staff as it considers necessary;

- **Standing Committee on Members' Services** (12 Members, as above), to examine the services to Members from time to time, and without interfering with the statutory responsibility of the Board of Internal Economy in such matters, be empowered to recommend to the consideration of the House matters it wishes to draw to the special attention of the Board; and be empowered to act as an Advisory Committee to Mr. Speaker and the Board of Internal Economy on the administration of the House and the provision of services and facilities to Members, and to draw the special attention of the House to such matters as the Committee believes requires it;

PRIVATE MEMBERS' MOTIONS

1. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
2. *Mr. Wrye*—Resolution—That in the opinion of this House the Government of Ontario should direct the Public Trustee to delay assuming management of a patient's estate under the *Mental Health Act* where the spouse or immediate family is seeking to have a committee appointed under the *Mental Incompetency Act*, and to help the families of victims of Alzheimer's disease who have not given powers of attorney by making application procedures for the appointment of such committees much simpler, less expensive and more effective, and to increase the Public Trustee's accountability in managing patients' estates by instructing the Public Trustee to give the patients' families accounting statements annually, rather than only on the patient's death, and that the surplus retained by the Public Trustee after paying salaries and expenses and establishing an assurance fund be not directed to the Consolidated Revenue Fund but be distributed to Ontario medical institutions as grants for research into degenerative brain diseases.
3. *Mr. Van Horne*—Resolution—That in the opinion of this House the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in these situations, and possible solutions to the problems.
4. *Mr. Cooke*—Resolution—That in the opinion of this House the Government should incorporate midwifery as a fully-insured service under OHIP into the health care system by establishing midwifery as a self-regulating profession under the Health Disciplines Act with a College of Midwives that will set training standards, license midwives to practice in hospitals, birthing centres, domiciles and other settings and guarantee that emergency back-up services are in place, recognizing that Canada is the only western industrial nation that has no provision for midwifery, and in order that the infant mortality rate may be lowered and the increased demand for safe, cost-effective and humane alternatives to current methods of child delivery may be met.
5. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and

consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.

6. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.
 7. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors do help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.
 8. *Mr. Cooke*—Resolution—That in the opinion of this House, the Minister of Health should give initial approval to the proposal to establish a Toronto Birth Centre, and recommend that funding be granted for this demonstration project establishing a birth centre independent of hospital, as a model that can be adapted for use throughout the Province to provide expectant parents with education and care during pre- and post-natal periods as well as assistance in delivery for healthy mothers.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
2. *Mr. Wrye*—Resolution—That in the opinion of this House the Government of Ontario should direct the Public Trustee to delay assuming management of a patient's estate under the *Mental Health Act* where the spouse or immediate family is seeking to have a committee appointed under the *Mental Incompetency Act*, and to help the families of victims of Alzheimer's disease who have not given powers of attorney by making application procedures for the appointment of such committees much simpler, less expensive and more effective, and to increase the Public Trustee's accountability in managing patients' estates by instructing the Public Trustee to give the patients' families accounting statements annually, rather than only on the patient's death, and that the surplus retained by the Public Trustee after paying salaries and expenses and establishing an assurance fund be not directed to the Consolidated Revenue Fund but be distributed to Ontario medical institutions as grants for research into degenerative brain diseases.
3. *Mr. Van Horne*—Resolution—That in the opinion of this House the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in these situations, and possible solutions to the problems.
4. *Mr. Cooke*—Resolution—That in the opinion of this House the Government should incorporate midwifery as a fully-insured service under OHIP into the health care system by establishing midwifery as a self-regulating profession under the Health Disciplines Act with a College of Midwives that will set training standards, license midwives to practice in hospitals, birthing centres, domiciles and other settings and guarantee that emergency back-up services are in place, recognizing that Canada is the only western industrial nation that has no provision for midwifery, and in order that the infant mortality rate may be lowered and the increased demand for safe, cost-effective and humane alternatives to current methods of child delivery may be met.
5. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and

consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.

6. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.
 7. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors do help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.
 8. *Mr. Cooke*—Resolution—That in the opinion of this House, the Minister of Health should give initial approval to the proposal to establish a Toronto Birth Centre, and recommend that funding be granted for this demonstration project establishing a birth centre independent of hospital, as a model that can be adapted for use throughout the Province to provide expectant parents with education and care during pre- and post-natal periods as well as assistance in delivery for healthy mothers.

NOTICES

PRIVATE MEMBERS' MOTIONS

1. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
2. *Mr. Wrye*—Resolution—That in the opinion of this House the Government of Ontario should direct the Public Trustee to delay assuming management of a patient's estate under the *Mental Health Act* where the spouse or immediate family is seeking to have a committee appointed under the *Mental Incompetency Act*, and to help the families of victims of Alzheimer's disease who have not given powers of attorney by making application procedures for the appointment of such committees much simpler, less expensive and more effective, and to increase the Public Trustee's accountability in managing patients' estates by instructing the Public Trustee to give the patients' families accounting statements annually, rather than only on the patient's death, and that the surplus retained by the Public Trustee after paying salaries and expenses and establishing an assurance fund be not directed to the Consolidated Revenue Fund but be distributed to Ontario medical institutions as grants for research into degenerative brain diseases.
3. *Mr. Van Horne*—Resolution—That in the opinion of this House the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in these situations, and possible solutions to the problems.
4. *Mr. Cooke*—Resolution—That in the opinion of this House the Government should incorporate midwifery as a fully-insured service under OHIP into the health care system by establishing midwifery as a self-regulating profession under the Health Disciplines Act with a College of Midwives that will set training standards, license midwives to practice in hospitals, birthing centres, domiciles and other settings and guarantee that emergency back-up services are in place, recognizing that Canada is the only western industrial nation that has no provision for midwifery, and in order that the infant mortality rate may be lowered and the increased demand for safe, cost-effective and humane alternatives to current methods of child delivery may be met.
5. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in

the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.

6. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.
 7. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors do help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.
 8. *Mr. Cooke*—Resolution—That in the opinion of this House, the Minister of Health should give initial approval to the proposal to establish a Toronto Birth Centre, and recommend that funding be granted for this demonstration project establishing a birth centre independent of hospital, as a model that can be adapted for use throughout the Province to provide expectant parents with education and care during pre- and post-natal periods as well as assistance in delivery for healthy mothers.

Second Reading Bill 2, An Act to provide for Freedom of Information and Protection of Individual Privacy. *Mr. Breithaupt. To be debated Thursday, April 12th, 1984.*

Ballot Item No. 6

Mr. Laughren—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated. *To be debated Wednesday, April 18th, 1984.*

Ballot Item No. 7

Mr. Havrot—Resolution—That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property. *To be debated Wednesday, April 18th, 1984.*

NOTICES

PRIVATE MEMBERS' MOTIONS

1. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

2. *Mr. Wrye*—Resolution—That in the opinion of this House the Government of Ontario should direct the Public Trustee to delay assuming management of a patient's estate under the *Mental Health Act* where the spouse or immediate family is seeking to have a committee appointed under the *Mental Incompetency Act*, and to help the families of victims of Alzheimer's disease who have not given powers of attorney by making application procedures for the appointment of such committees much simpler, less expensive and more effective, and to increase the Public Trustee's accountability in managing patients' estates by instructing the Public Trustee to give the patients' families accounting statements annually, rather than only on the patient's death, and that the surplus retained by the Public Trustee after paying salaries and expenses and establishing an assurance fund be not directed to the Consolidated Revenue Fund but be distributed to Ontario medical institutions as grants for research into degenerative brain diseases.
3. *Mr. Van Horne*—Resolution—That in the opinion of this House the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in these situations, and possible solutions to the problems.
4. *Mr. Cooke*—Resolution—That in the opinion of this House the Government should incorporate midwifery as a fully-insured service under OHIP into the health care system by establishing midwifery as a self-regulating profession under the Health Disciplines Act with a College of Midwives that will set training standards, license midwives to practice in hospitals, birthing centres, domiciles and other settings and guarantee that emergency back-up services are in place, recognizing that Canada is the only western industrial nation that has no provision for midwifery, and in order that the infant mortality rate may be lowered and the increased demand for safe, cost-effective and humane alternatives to current methods of child delivery may be met.
5. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in

the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.

6. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.
 7. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors do help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.
 8. *Mr. Cooke*—Resolution—That in the opinion of this House, the Minister of Health should give initial approval to the proposal to establish a Toronto Birth Centre, and recommend that funding be granted for this demonstration project establishing a birth centre independent of hospital, as a model that can be adapted for use throughout the Province to provide expectant parents with education and care during pre- and post-natal periods as well as assistance in delivery for healthy mothers.

Do inspectors of the Nursing Homes Inspection Branch, as a matter of policy or practice, cite, as areas of non-compliance, conditions which are trivial, picayune or unimportant. NOTICES

PRIVATE MEMBERS' MOTIONS

1. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,
 and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
2. *Mr. Wrye*—Resolution—That in the opinion of this House the Government of Ontario should direct the Public Trustee to delay assuming management of a patient's estate under the *Mental Health Act* where the spouse or immediate family is seeking to have a committee appointed under the *Mental Incompetency Act*, and to help the families of victims of Alzheimer's disease who have not given powers of attorney by making application procedures for the appointment of such committees much simpler, less expensive and more effective, and to increase the Public Trustee's accountability in managing patients' estates by instructing the Public Trustee to give the patients' families accounting statements annually, rather than only on the patient's death, and that the surplus retained by the Public Trustee after paying salaries and expenses and establishing an assurance fund be not directed to the Consolidated Revenue Fund but be distributed to Ontario medical institutions as grants for research into degenerative brain diseases.
3. *Mr. Van Horne*—Resolution—That in the opinion of this House the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in these situations, and possible solutions to the problems.
4. *Mr. Cooke*—Resolution—That in the opinion of this House the Government should incorporate midwifery as a fully-insured service under OHIP into the health care system by establishing midwifery as a self-regulating profession under the Health Disciplines Act with a College of Midwives that will set training standards, license midwives to practice in hospitals, birthing centres, domiciles and other settings and guarantee that emergency back-up services are in place, recognizing that Canada is the only western industrial nation that has no provision for midwifery, and in order that the infant mortality rate may be lowered and the increased demand for safe, cost-effective and humane alternatives to current methods of child delivery may be met.
5. *Mr. Cousens*—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in

the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.

6. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.
 7. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors do help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.
 8. *Mr. Cooke*—Resolution—That in the opinion of this House, the Minister of Health should give initial approval to the proposal to establish a Toronto Birth Centre, and recommend that funding be granted for this demonstration project establishing a birth centre independent of hospital, as a model that can be adapted for use throughout the Province to provide expectant parents with education and care during pre- and post-natal periods as well as assistance in delivery for healthy mothers.
 9. *Mr. Kolyn*—Resolution—That in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the order of the House
passed on December 16th, 1983)*

Ballot Item No. 4

Mr. Cousens—Resolution—That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy. *To be debated Thursday, April 12th, 1984.*

Ballot Item No. 5

Ballot Item No. 6

Mr. Laughren—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated. *To be debated Wednesday, April 18th, 1984.*

Ballot Item No. 7

Mr. Havrot—Resolution—That given the persuasive evidence that properly installed smoke detectors do help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property. *To be debated Wednesday, April 18th, 1984.*

NOTICES

PRIVATE MEMBERS' MOTIONS

1. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,
 and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
2. *Mr. Wrye*—Resolution—That in the opinion of this House the Government of Ontario should direct the Public Trustee to delay assuming management of a patient's estate under the *Mental Health Act* where the spouse or immediate family is seeking to have a committee appointed under the *Mental Incompetency Act*, and to help the families of victims of Alzheimer's disease who have not given powers of attorney by making application procedures for the appointment of such committees much simpler, less expensive and more effective, and to increase the Public Trustee's accountability in managing patients' estates by instructing the Public Trustee to give the patients' families accounting statements annually, rather than only on the patient's death, and that the surplus retained by the Public Trustee after paying salaries and expenses and establishing an assurance fund be not directed to the Consolidated Revenue Fund but be distributed to Ontario medical institutions as grants for research into degenerative brain diseases.
3. *Mr. Van Horne*—Resolution—That in the opinion of this House the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in these situations, and possible solutions to the problems.
4. *Mr. Cooke*—Resolution—That in the opinion of this House the Government should incorporate midwifery as a fully-insured service under OHIP into the health care system by establishing midwifery as a self-regulating profession under the Health Disciplines Act with a College of Midwives that will set training standards, license midwives to practice in hospitals, birthing centres, domiciles and other settings and guarantee that emergency back-up services are in place, recognizing that Canada is the only western industrial nation that has no provision for midwifery, and in order that the infant mortality rate may be lowered and the increased demand for safe, cost-effective and humane alternatives to current methods of child delivery may be met.
5. *Debated April 12th, 1984.*

6. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.
7. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors do help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.
8. *Mr. Cooke*—Resolution—That in the opinion of this House, the Minister of Health should give initial approval to the proposal to establish a Toronto Birth Centre, and recommend that funding be granted for this demonstration project establishing a birth centre independent of hospital, as a model that can be adapted for use throughout the Province to provide expectant parents with education and care during pre- and post-natal periods as well as assistance in delivery for healthy mothers.
9. *Mr. Kolyn*—Resolution—That in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
10. *Mr. Johnston* (Scarborough West)—Resolution—That in the opinion of this House we should encourage the Parliament of Canada to endorse the provisions of the Peace Petition Caravan Campaign, namely that Canada should become a nuclear weapon free zone; that Cruise missile testing in Canada be ended; that money be redirected from the arms race to meet basic human needs; and that a free vote in the federal House on these issues be held.

11. *Mr. Di Santo*—Resolution—That in the opinion of this House the government, recognizing that the decision of the Toronto Transit Commission in May 1983 to restrict eligibility for the student fare to full-time students, 19 years of age and under places undue hardship on almost 3,000 adult secondary students living in Metropolitan Toronto, use its powers to convince the Toronto Transit Commissioner to make all duly registered secondary students, irrespective of age, eligible for student fare reductions and that all such students become eligible for a TTC monthly pass at an appropriate and reasonable student rate.
 12. *Mr. Allen*—Resolution—That this House recognizes that some 1.5 million jobless constitute a serious moral as well as an economic crisis and hereby endorses the economic and social reform program proposed by the Canadian Council of Catholic Bishops in the document entitled "Ethical Reflections on the Economic Crisis". Further, this House urges the Government of Ontario and the Government of Canada to proceed immediately with legislative and policy enactments which will implement the five specific short-term strategies outlined in the document, namely: (1) first, unemployment rather than inflation, should be recognized as the number one problem to be tackled in overcoming the present crisis; (2) second, an industrial strategy should be developed to create permanent and meaningful jobs for people in local communities; (3) third, a more balanced and equitable program should be developed for reducing and stemming the rate of inflation, shifting the burden of income restraint to upper income earners and increasing taxation on investment income and corporations; (4) fourth, greater emphasis should be given to the goal of social responsibility in the current recession, ending cut-backs in social services, maintaining adequate health care and social security benefits, and above all, guaranteeing special assistance for the unemployed, welfare recipients, the working poor and one-industry towns suffering from plant shutdowns; and (5) fifth, labour unions should be asked to play a more decisive and responsible role in developing strategies for economic recovery and employment. This requires, among other things, immediate steps to redress the historic exclusion of labour from an ongoing role in effective industrial decision-making and ownership in the workplace.
 13. *Mr. Reid (Rainy River)*—Resolution—That in the opinion of this House, the Government should, (1) table in the Assembly every survey of public opinion commissioned by the Government between March 1st, 1982 and today's date; (2) table in the Assembly every survey of public opinion commissioned by the Government after today's date, within one month of the day the survey is presented to the Government, unless the Assembly is not then in session, in which case the survey shall be filed with the Clerk of the Assembly; and (3) with every survey tabled, indicate its full cost and who carried it out.

Ballot Item No. 7

Mr. Havrot—Resolution—That given the persuasive evidence that properly installed smoke detectors do help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property. *To be debated Wednesday, April 18th, 1984.*

Mr. Allen—Resolution—That this House recognizes that some 1.5 million jobless constitute a serious moral as well as an economic crisis and hereby endorses the economic and social reform program proposed by the Canadian Council of Catholic Bishops in the document entitled "Ethical Reflections on the Economic Crisis". Further, this House urges the Government of Ontario and the Government of Canada to proceed immediately with legislative and policy enactments which will implement the five specific short-term strategies outlined in the document, namely: (1) first, unemployment rather than inflation, should be recognized as the number one problem to be tackled in overcoming the present crisis; (2) second, an industrial strategy should be developed to create permanent and meaningful jobs for people in local communities; (3) third, a more balanced and equitable program should be developed for reducing and stemming the rate of inflation, shifting the burden of income restraint to upper income earners and increasing taxation on investment income and corporations; (4) fourth, greater emphasis should be given to the goal of social

responsibility in the current recession, ending cut-backs in social services, maintaining adequate health care and social security benefits, and above all, guaranteeing special assistance for the unemployed, welfare recipients, the working poor and one-industry towns suffering from plant shut-downs; and (5) fifth, labour unions should be asked to play a more decisive and responsible role in developing strategies for economic recovery and employment. NOTICES

PRIVATE MEMBERS' MOTIONS

1. *Mr. Epp*—Resolution—That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

2. *Mr. Wrye*—Resolution—That in the opinion of this House the Government of Ontario should direct the Public Trustee to delay assuming management of a patient's estate under the *Mental Health Act* where the spouse or immediate family is seeking to have a committee appointed under the *Mental Incompetency Act*, and to help the families of victims of Alzheimer's disease who have not given powers of attorney by making application procedures for the appointment of such committees much simpler, less expensive and more effective, and to increase the Public Trustee's accountability in managing patients' estates by instructing the Public Trustee to give the patients' families accounting statements annually, rather than only on the patient's death, and that the surplus retained by the Public Trustee after paying salaries and expenses and establishing an assurance fund be not directed to the Consolidated Revenue Fund but be distributed to Ontario medical institutions as grants for research into degenerative brain diseases.
3. *Mr. Van Horne*—Resolution—That in the opinion of this House the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in these situations, and possible solutions to the problems.
4. *Mr. Cooke*—Resolution—That in the opinion of this House the Government should incorporate midwifery as a fully-insured service under OHIP into the health care system by establishing midwifery as a self-regulating profession under the Health Disciplines Act with a College of Midwives that will set training standards, license midwives to practice in hospitals, birthing centres, domiciles and other settings and guarantee that emergency back-up services are in place, recognizing that Canada is the only western industrial nation that has no provision for midwifery, and in order that the infant mortality rate may be lowered and the increased demand for safe, cost-effective and humane alternatives to current methods of child delivery may be met.
6. *Mr. Laughren*—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing

that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.

7. *Mr. Havrot*—Resolution—That given the persuasive evidence that properly installed smoke detectors do help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.
8. *Mr. Cooke*—Resolution—That in the opinion of this House, the Minister of Health should give initial approval to the proposal to establish a Toronto Birth Centre, and recommend that funding be granted for this demonstration project establishing a birth centre independent of hospital, as a model that can be adapted for use throughout the Province to provide expectant parents with education and care during pre- and post-natal periods as well as assistance in delivery for healthy mothers.
9. *Mr. Kolyn*—Resolution—That in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
10. *Mr. Johnston (Scarborough West)*—Resolution—That in the opinion of this House we should encourage the Parliament of Canada to endorse the provisions of the Peace Petition Caravan Campaign, namely that Canada should become a nuclear weapon free zone; that Cruise missile testing in Canada be ended; that money be redirected from the arms race to meet basic human needs; and that a free vote in the federal House on these issues be held.
11. *Mr. Di Santo*—Resolution—That in the opinion of this House the government, recognizing that the decision of the Toronto Transit Commission in May 1983 to restrict eligibility for the student fare to full-time students, 19 years of age and under places undue hardship on almost 3,000 adult second-

ary students living in Metropolitan Toronto, use its powers to convince the Toronto Transit Commissioner to make all duly registered secondary students, irrespective of age, eligible for student fare reductions and that all such students become eligible for a TTC monthly pass at an appropriate and reasonable student rate.

12. *Mr. Allen*—Resolution—That this House recognizes that some 1.5 million jobless constitute a serious moral as well as an economic crisis and hereby endorses the economic and social reform program proposed by the Canadian Council of Catholic Bishops in the document entitled “Ethical Reflections on the Economic Crisis”. Further, this House urges the Government of Ontario and the Government of Canada to proceed immediately with legislative and policy enactments which will implement the five specific short-term strategies outlined in the document, namely: (1) first, unemployment rather than inflation, should be recognized as the number one problem to be tackled in overcoming the present crisis; (2) second, an industrial strategy should be developed to create permanent and meaningful jobs for people in local communities; (3) third, a more balanced and equitable program should be developed for reducing and stemming the rate of inflation, shifting the burden of income restraint to upper income earners and increasing taxation on investment income and corporations; (4) fourth, greater emphasis should be given to the goal of social responsibility in the current recession, ending cut-backs in social services, maintaining adequate health care and social security benefits, and above all, guaranteeing special assistance for the unemployed, welfare recipients, the working poor and one-industry towns suffering from plant shutdowns; and (5) fifth, labour unions should be asked to play a more decisive and responsible role in developing strategies for economic recovery and employment. This requires, among other things, immediate steps to redress the historic exclusion of labour from an ongoing role in effective industrial decision-making and ownership in the workplace.
 13. *Mr. Reid (Rainy River)*—Resolution—That in the opinion of this House, the Government should, (1) table in the Assembly every survey of public opinion commissioned by the Government between March 1st, 1982 and today’s date; (2) table in the Assembly every survey of public opinion commissioned by the Government after today’s date, within one month of the day the survey is presented to the Government, unless the Assembly is not then in session, in which case the survey shall be filed with the Clerk of the Assembly; and (3) with every survey tabled, indicate its full cost and who carried it out.

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

*(Precedence in accordance with the order of the House
passed on December 16th, 1983)*

Ballot Item No. 6

Mr. Laughren—Resolution—That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated. To be debated Wednesday, April 18th, 1984.

Ballot Item No. 7

Mr. Havrot—Resolution—That given the persuasive evidence that properly installed smoke detectors do help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property. To be debated Wednesday, April 18th, 1984.

Ballot Item No. 8

Second Reading Bill 32, An Act to provide for a Basic Residential Power Rate Applicable to the Essential Energy Needs of Residential Households in Ontario. Mr. Sargent. To be debated Thursday, April 26th, 1984.

Ballot Item No. 9

Mr. Allen—Resolution—That this House recognizes that some 1.5 million jobless constitute a serious moral as well as an economic crisis and hereby endorses the economic and social reform program proposed by the Canadian Council of Catholic Bishops in the document entitled "Ethical Reflections on the Economic Crisis". Further, this House urges the Government of Ontario and the Government of Canada to proceed immediately with legislative and policy enactments which will implement the five specific short-term strategies outlined in the document, namely: (1) first, unemployment rather than inflation, should be recognized as the number one problem to be tackled in overcoming the present crisis; (2) second, an industrial strategy should be developed to create permanent and meaningful jobs for people in local communities; (3) third, a more balanced and equitable program should be developed for reducing and stemming the rate of inflation, shifting the burden of income restraint to upper income earners and increasing taxation on investment income and corporations; (4) fourth, greater emphasis should be given to the goal of social responsibility in the current recession, ending cut-backs in social services, maintaining adequate health care and social security benefits, and above all, guaranteeing

special assistance for the unemployed, welfare recipients, the working poor and one-industry towns suffering from plant shut-downs; and (5) fifth, labour unions should be asked to play a more decisive and responsible role in developing strategies for economic recovery and employment. This requires, among other things, immediate steps to redress the historic exclusion of labour from an ongoing role in effective industrial decision-making and ownership in the workplace. *To be debated Thursday, April 26th, 1984.*

Ballot Item No. 11

Second Reading Bill 8, An Act to amend the Liquor Control Act. *Mr. Boudria. To be debated Thursday, May 3rd, 1984.*
